FLAME

FACILITY FOR LARGE-SCALE ADAPTIVE MEDIA EXPERIMENTATION

DISCOVER FLAME'S OPEN CALLS!

For its Second Open Call, FLAME is looking for **SMEs** and **Replicators 3rd party projects** to explore edge experiences considering consumers' desire for personalised, localised and interactive media content delivered through current and emerging human-computer interfaces used in outside spaces or between outside and inside spaces.

SMEs 3rd party projects topics:

- Localised video production, consumption and delivery trials – Innovative services for today's devices
- Augmented and mixed reality trials – Innovative services for future worlds
- Mobile function offloading to the edge – Innovative services for future devices

Replicators 3rd party projects topics:

- Site-specific service offerings
- Neutral-host models for service provisioning

ELIGIBLE ORGANISATIONS WILL BE COMPETING FOR ONE OF EIGHT AVAILABLE SLOTS:

5x SME TRIALS
6 MONTHS - 70,000 €/EA

3x REPLICATORS
14 MONTHS - 130,000 €/EA
